

**Diamon-Fusion International, Inc** makes applying a protective coating easier, cheaper, cleaner and safer than it has EVER been! And, we're doing it with one of the highest-quality coatings commercially available.

DFI's new FuseCube™ is designed to revolutionize the protective coating industry, by offering the most cost-effective, high-quality coating process in the world. Utilizing DFI's award-winning Diamon-Fusion® coating, fabricators can now coat thousands of square feet of glass on both sides in less than an hour, all while reducing costs up to 84% versus hand-applied coatings. The patent-pending process is as simple as operating a vending machine. Operators load the glass, drop in the Diamon-Fusion cartridges, press a button and treat thousands of square feet in less than an hour. The automatic system conducts the entire coating process and indicates with a green light at the top of the machine when the cycle is done and the glass can be removed.

**Please note: the FuseCube™ design exclusively uses Diamon-Fusion® branded cartridges.**

<p><b>Maximum Standard Piece Run Capacity:</b> 167 m<sup>2</sup> configured as racked 75 pieces – each 0.91m x 2.44m</p> <p><b>Maximum single piece:</b> 2.44 m x 2.44 m</p> <p><b>Cycle Time:</b> 1 hour</p> <p><b>Connections:</b> 240V, water, compressed air, CAT-5</p> <p><b>Dimensions:</b> 4.83m W x 1.22 m D x 3.05m H Can be installed against one wall</p> <p><b>Installation &amp; Training Requirement:</b> 1 day</p>	<p><b>Maximum Standard Piece Run Capacity:</b> 502 m<sup>2</sup> configured as racked 225 pieces – each 0.91m x 2.44m</p> <p><b>Maximum single piece:</b> 3.05 m x 3.35 m</p> <p><b>Cycle Time:</b> 1 hour</p> <p><b>Connections:</b> 240V, water, compressed air, CAT-5</p> <p><b>Dimensions:</b> 3.66 m W x 3.56 m D x 3.05m H</p> <p><b>Installation &amp; Training Requirement:</b> 2 days</p>	<p><b>Maximum Standard Piece Run Capacity:</b> 1003 m<sup>2</sup> configured as racked 450 pieces – each 0.91m x 2.44m</p> <p><b>Maximum single piece:</b> 4.39 m x 6.40 m</p> <p><b>Cycle Time:</b> 1 hour</p> <p><b>Connections:</b> 240V, water, compressed air, CAT-5</p> <p><b>Dimensions:</b> 3.96 m W x 6.71m D x 4.47m H</p> <p><b>Installation &amp; Training Requirement:</b> 8 days</p>

## WORLD'S MOST EFFICIENT PROTECTIVE COATING APPLICATION OF THE UNPARALLELED DIAMON-FUSION® PROTECTIVE COATING

### INCREDIBLY EFFICIENT

### SIMPLE TO OPERATE

### PROVEN CORE TECHNOLOGY

- Reduces costs up to 84%**  
in labor and material versus hand-applied coatings
- Reduces safety and regulatory concerns**  
by eliminating risks of handling and spraying  
coating chemicals within facilities
- Delivers a cleaner environment**  
by providing a zero-emissions process approved  
by the most stringent air quality management  
agencies in the world
- Maximizes uptime**  
with fast, professional installation and a minimum  
service requirement
- Increases annual capacity up to 1500%**  
versus hand-applied coatings
- Enhances scalability and flexibility**  
with at no additional equipment investment

**NEW EASY-TO-USE  
CARTRIDGE SYSTEM  
MAKES IT AS EASY TO  
OPERATE AS A SODA  
MACHINE**

Covered under U.S. Patent No: 6,245,387, and other U.S. and international patents and patents-pending
