DIAMON-FUSION®  
**ULTRA™**

Standing on the shoulders of the industry leading Diamon-Fusion® coating, Diamon-Fusion® ULTRA™ takes performance and durability to new levels.

“Our goal is constant innovation and improvement. Our passion drives us to the leadership position naturally. We love to produce the best products on the planet and use them to make people’s lives better!”

Adam Zax, CEO Diamon-Fusion International

DFI’s Research and Development team has done it again!

du·ra·bil·i·ty / noun: Permanence by virtue of the power to resist stress or force.

# DIAMON-FUSION® ULTRA™

Independent tests prove Diamon-Fusion® ULTRA™ is the most durable protective nano-coating commercially available.

Available in both field friendly hand-applied™ and super-efficient vapor deposition™ application methods.
