

Limited Lifetime Warranty for Diamon-Fusion® Patented Nano-Coating on Shower Doors

Diamon-Fusion® treated shower doors are guaranteed to remain more water repellent than untreated glass for the lifetime of the glass as long as the recommended shower enclosure care instructions are followed and no harsh or abrasive cleaners are used.

DFI's patented nano-coating chemically bonds to the glass and creates a patented, protective nano film that when properly applied by an authorized applicator, is guaranteed not to haze, chip, crack, peel, or discolor for the lifetime of the glass.

No Revitalizer is required to maintain the Diamon-Fusion Limited Lifetime Warranty. If you are interested in optional care products, ask your reseller about the DFI Consumer Maintenance Kit, a complete system for following the recommended shower enclosure care instructions. In the event of a covered product failure, DFI's liability is limited to the cost of replacing DFI chemical materials for retreatment, and will in no way extend to indirect, incidental or consequential damages incurred in relationship to this product.

THE FOREGOING WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES OF ANY KIND INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. COMPANY SHALL NOT BE LIABLE FOR INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT. NOTE: SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS MIGHT NOT APPLY TO YOU AS THE ORIGINAL PURCHASER. THIS LIMITED WARRANTY GIVES THE ORIGINAL PURCHASER SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS THAT VARY FROM STATE TO STATE.

COMPANY SHALL BE THE SOLE JUDGE AS TO WHETHER RECOMMENDED SHOWER ENCLOSURE CARE INSTRUCTIONS HAVE BEEN FOLLOWED, AND IF IN COMPANY'S JUDGMENT THE PRODUCT FAILURE HAS ARISEN FROM IMPROPER CARE OR FAILURE TO FOLLOW COMPANY'S RECOMMENDATIONS, THEN COMPANY SHALL BE RELEASED FROM ANY OBLIGATION OR LIABILITY UNDER THIS LIMITED WARRANTY.

DIAMON-FUSION® TREATED SHOWER DOORS

Shower Enclosure Care Instructions

For best results: Rinse the shower enclosure with clean water and wipe down any remaining droplets. You may also towel dry the surface or use a squeegee.

Once a month: Wet the shower enclosure and use a nylon body puff to go over the surface until clean and smooth. Then rinse and wipe down any remaining droplets.

MAINTENANCE AND CARE KITS FOR DIAMON-FUSION TREATED SHOWER DOORS

DFI's Consumer Maintenance Kit and DFI Express Care Kit can be used to bring back your Diamon-Fusion® coating to like-new performance, if basic care instructions have not been followed or if you have very hard water.

DFI Maintenance Kits Include:

- ✓ **DFI Revitalizer** – This is used to bring back your DFI treated surfaces to like-new performance
- ✓ **DFI Restoration Powder** – This powder, combined with water and a LIGHT TOUCH, can be used if necessary when the recommended care instructions have not been followed
- ✓ **Nylon Body Puff** – To wipe down the treated surface on a regular basis
- ✓ **White Scrubber Pad*** – For use if needed
- ✓ **Microfiber Towel** – Used for polishing the glass after applying the Revitalizer

The DFI Consumer Maintenance Kit contains everything above including 16 ounces of Revitalizer; the DFI Express Care Kit simply has smaller quantities of Revitalizer and Restoration Powder.

***Use of the White Scrubber Pad:** if stains persist, use it with the Restoration Powder and a LIGHT TOUCH.

Warning: Using too much pressure with the Restoration Powder can damage the DFI coating. Once the surface is clean and dry, apply the Revitalizer and polish it off with the Microfiber Towel.

Approved Cleaning Products

If you wish to use a cleaning product, the following may be used:

- White household vinegar diluted with water
- Sprayway® Ammonia-Free Glass Cleaner
- Seventh Generation™ Natural Glass & Surface Cleaner
- Simple Green®
- Ammonia-Free Windex®
